BASSETT FURNITURE INDUSTRIES INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-UNAUDITED MARCH 2, 2002 (Dollars in thousands except share and per share data)

Note A. Basis of Presentation:

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included.

The condensed consolidated financial statements include the accounts of Bassett Furniture Industries, Incorporated (the "Company") and its wholly owned subsidiaries. The equity method of accounting is used for the Company's investment in affiliated companies in which the Company exercises significant influence but does not maintain control.

Note B. Inventories:

Inventories are carried at last-in, first-out (LIFO) cost, which is not in excess of market. Inventories at March 2, 2002 and November 24, 2001 consisted of the following:

	March 2, 2002	November 24, 2001
Finished goods	\$ 25,575	\$ 29,289

Total inventories, net	\$ 29,782	\$ 32,244 =======

Note C. Investment in Affiliated Companies:

Summarized combined income statement information for the Company's equity method investments, excluding LRG Furniture, LLC (LRG), for the fourteen weeks ended March 2, 2002 and thirteen weeks ended February 24, 2001 are as follows:

	2002	2001
Revenues	\$ 10,621	\$ 13,801
Income from operations	5,891	6,279
Net income	3,118	2,379

The Accessory Group, LP, (AG) an affilitate of the Company, was reorganized in the first quarter of 2002 and Bassett effectively took operational control of AG. As such, the Company consolidated the results of operations into the consolidated financial statements of Bassett Furniture Industries for the first quarter of 2002. This investment was previously accounted for as an equity method investment.

LRG Furniture, LLC (LRG), an affiliated company, incurred significant losses in fiscal 2001 but expects improved results in 2002. Losses for the first quarter of 2002 were well below losses reported in any other previous quarter. The Company had outstanding accounts and notes receivable from LRG totaling \$18,231 at the end of the first quarter of 2002. Additionally, the Company has leases and loan guarantees with LRG. Subsequent to the close of the first quarter of 2002, the Company completed its previously announced acquisition of five stores from LRG for net book value. The Company has committed to provide financial support to LRG, as needed, over the next two years. Summarized combined income statement information for LRG for the fourteen weeks ended March 2, 2002 and thirteen weeks ended February 24, 2001 is as follows:

	2002	2001
Revenues Loss from operations	\$16,062 (86)	\$13,749 (1,683)
Net loss	(595)	(2,294)

BASSETT FURNTURE INDUSTRIES INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-UNAUDITED MARCH 2, 2002(Dollars in thousands except share and per share data)

Note D. Comprehensive income:

For the fourteen weeks ended March 2, 2002 and the thirteen weeks ended February 24, 2001, total comprehensive income was \$2,432 and \$1,658, respectively. Included in total comprehensive income for the first quarter was net income of \$2,912 and \$2,252, respectively, and unrealized holding losses arising during the period, net of tax of \$480 and \$594, respectively.

Note E. Restructuring, Impaired Fixed Assets and Other Unusual and Nonrecurring Charges:

There were no restructuring, fixed asset impairments or other non-recurring charges incurred during the first quarter of 2002. However, \$2,402 of severance and related employee benefit costs were expensed in 2001, \$1,847 in the first quarter of 2001, associated with fiscal 2001 restructuring. \$1,820 was expended during fiscal 2001 and \$345 of the remaining \$582 was expended during the first quarter of 2002.

Note F. Contingencies:

Legislation has phased out interest deductions on certain policy loans related to Company owned life insurance (COLI) as of January 1, 1999. The Company has recorded cumulative reductions to income tax expense of approximately \$8,000 as the result of COLI interest deductions through 1998. The Internal Revenue Service, on a national level, has pursued an adverse position regarding the deductibility of COLI policy loan interest for years prior to January 1, 1999. The IRS has received favorable rulings on the non-deductibility of COLI loan interest. Management understands that these rulings and the adverse position taken by the IRS will be subjected to extensive challenges in court. In the event that the IRS prevails, the outcome should not be material to the Company's future results of operations.

The Company is also involved in various other legal and environmental matters which arise in the normal course of business. Although the final outcome of these matters cannot be determined, based on the facts presently known, it is management's opinion that the final resolution of these matters will not have a material adverse effect on the Company's financial position or future results of operations.

Note G. Recent Accounting Pronouncements

The Company adopted SFAS No. 142 "Goodwill and Other Intangible Assets" in the first quarter of fiscal 2002. Instead of amortizing goodwill over a fixed period of time, the Company will instead measure the fair value of acquired businesses annually to determine if goodwill has been impaired. Goodwill amortization, related to investments in affiliates, which was recorded during the first quarter of 2001 and that will no longer be recorded, was \$312.

(Dollars in thousands except share and per share data)

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations - First quarter 2002 compared with first quarter 2001

In the first quarter of 2002 the Company reported \$84,788 in net sales, an increase of 2.7% from \$82,553 reported for the first quarter of 2001. This increase is due to strong performances in the Bassett Furniture Direct (BFD) retail stores and increasing success with independent dealers through the Five Star program, which generated greater demand for the Company's products, especially in upholstered furniture and by an additional week of sales in the first quarter of 2002, related to the Company's 53 week year for fiscal 2002.

Sales to the BFD and @Home channels increased by 25% in the first quarter of 2002 compared to the first quarter of 2001. During the first quarter 2002, four BFD stores were opened, bringing the total BFD's open at the end of the quarter to 71. There were a total of 180 @Home galleries at the end of the first quarter 2002.

Gross margin; selling, general and administrative (S,G&A) expenses; and operating income as a percentage of net sales were as follows for the quarters ended March 2, 2002 and February 24, 2001:

	2002	2001
Gross margin	19.7%	17.6%
Gain on sale of property and equipment	0.0%	-3.7%
Restructuring and impaired fixed asset charges	0.0%	2.2%
S, G&A	16.2%	16.0%
Operating income	3.5%	3.1%

The increase in gross margin for the first quarter 2002 compared to the prior year was a result of improved earnings from the Upholstery Division and restructuring activities in the Wood Division completed in fiscal 2001. The overall improvement in the Company's operating margins was due in part to the 2001 reductions in the Company's fixed cost structure.

The Company recognized a one-time gain of \$3,028 on the sale of its former showroom in Thomasville, North Carolina, during the first quarter of 2001 which is included in operating income.

In late 2000, the Company made a decision to consolidate production in the Wood Division. As a result of this decision, the Company incurred \$247 in related restructuring expenses during the first quarter of 2001. Also during the first quarter of 2001, additional restructuring activities, which include further consolidation within the Wood Division, resulted in a charge of \$1,600 related to the writedown of property and equipment. This writedown was entirely related to closing one facility in Bassett, Virginia. Production and many of the employees from this facility have been transferred to other manufacturing facilities.

S,G&A expenses were 16.2% of sales for the first quarter of 2002 compared to 16.0% of sales for the first quarter of 2001. The Company's total S,G&A spending increased from \$13,201 in the first quarter 2001 to \$13,728 for the first quarter of 2002 due in part to the variable nature of some S,G&A expenses such as commissions. The Company continues to closely monitor discretionary spending and adjusts expenses to current sales demands with spending reductions in corporate overhead and marketing. Management is committed to reducing costs and has targeted S,G&A spending to approximate 15% of net sales over the next three years.

Other income increased significantly in the first quarter of 2002, \$1,221 compared to \$678 for the first quarter 2001. This increase was attributable to a reduction in losses from the Company's investment in LRG as well as an improvement in earnings from the Company's IHFC investment. These improvements were partially offset by lower earnings from the Company's investment in the Bassett Industries Alternative Asset Fund, LP in 2002. Included in other income are the Company's regular investment earnings, earnings from its equity in undistributed income of affiliated companies, and interest expense. Other income is expected to continue to be an integral component of the Company's future earnings.

PART I-FINANCIAL INFORMATION-CONTINUED BASSETT FURNITURE INDUSTRIES INC. AND SUBSIDIARIES MARCH 2, 2002

(Dollars in thousands except share and per share data)

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

The effective tax rate was 31% in the first quarter of 2002 compared to 30% in the first quarter of 2001. The effective tax rates are lower than the statutory federal income tax rate due to exclusions for tax exempt income.

For the quarter ended March 2, 2002, net income was \$2,912 or \$.25 per diluted share, compared to \$2,252 or \$.19 per diluted share for the first quarter ended February 24, 2001.

Segment Information

The following is a discussion of operating results for each of Bassett's business segments.

Wood Division	March 2, 2002	February 24, 2001
Net sales	\$ 44,512	\$ 48,575
Contribution to profit and overhead	\$ 5,202	\$ 5,731

Wood Division net sales decreased 8.4% in the first quarter of 2002 from levels attained in the first quarter of 2001 due to continued erosion of department store sales, the bankrupticies of two major customers and a strategic decision by management to import certain product offerings based on competitive pressures. The decline in shipments to the department store channel was partially offset by an increase in shipments to the BFD stores. In an effort to improve sales and margins in this segment, the Company is introducing new products, opening more BFD and @Home stores, repositioning the division through cost reduction initiatives, as well as improving product styling, quality and service.

Contribution to profit and overhead is defined by the Company as gross profit less direct divisional operating expenses, but excluding any allocation of corporate overhead expenses, interest expense, or income taxes. Wood Division contribution to profit and overhead remained relatively constant between quarters (11.7% of sales for 2002 as compared to 11.8% of sales for 2001) despite the 8.4% decline in sales. The Company was able to achieve these results due to restructuring efforts completed in 2001. Sales improvement, if realized, and complete implementation of cost cutting initiatives should improve operating results for this division in subsequent quarters.

Import Divison	March 2, 2002	February 24, 2001	
Net sales	\$ 9,355	\$ 8,646	
Contribution to profit and overhead	\$ 2,008	\$ 1,958	

Net sales for the Import Division increased 8.2% in the first quarter of 2002 compared to the first quarter of 2001. The Company expects the sales of this segment to continue to increase, which should, in turn, increase the Company's overall margin position. The division has benefited from the Company's decision to outsource certain wood furniture previously manufactured domestically. Notable among the wood furniture now imported are occasional tables and cribs. The products of the Import Division will continue to supplement the product offerings of the other divisions, as well as include complete suites of bedroom and dining room furniture.

Import Division contribution to profit and overhead decreased from 22.6% of net sales in the first quarter of 2001 to 21.5% of net sales in 2002. The decrease was a result of an increase in freight, handling and related overhead costs for the division. Additionally, the Company has had to price more competitively the product offerings of the Import Division. The expected sales growth of this segment requires the Company to focus more attention on forecasting and purchasing practices, inventory management, logistics and quality.

PART I-FINANCIAL INFORMATION-CONTINUED BASSETT FURNITURE INDUSTRIES INC. AND SUBSIDIARIES MARCH 2, 2002 (Dollars in thousands except share and per share data)

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

Upholstery Division	March 2, 2002	February 24, 2001
Net sales Contribution to profit and overhead	\$ 28,320 \$ 3,779	\$ 22,242 \$ 2,160

Net sales for the Upholstery Division have increased by 27.3% for the first quarter 2002 compared to the first quarter 2001, due to sales increases through the BFD channel. The Division's product offerings have been bolstered by products with more contemporary styling at better price points than those that were offered in the first quarter of 2001. Additionally, the Company has implemented a quick ship delivery program for certain dealers that guarantees delivery of furniture to the customer within thirty days. Management also decided, during 2001, to exit certain distribution channels, which were incompatible with the Bassett brand image and the Company's current primary channels of distribution. The Company is focusing upholstery distribution on its BFD stores, its @ Home with Bassett galleries, and several of its major customers.

Contribution to profit and overhead increased from 9.7% of net sales for the first quarter of 2001 to 13.4% of net sales for the first quarter of 2002. Increases were due to a continuation of efforts to control labor and overhead spending, the decision to exit certain distribution channels, introduction of new products and the implementation of several operational initiatives. These include cellular manufacturing and investments in new cutting and sewing equipment. The Company plans additional profit improvements for the Upholstery Division through sales growth of new products at higher margins and the related absorption efficiencies resulting from increased sales and production levels.

Liquidity and Capital Resources

Cash provided by operating activities was \$5,886 for the first quarter ended March 2, 2002, compared to cash provided by operating activities of \$6,863 for the quarter ended February 24, 2001. The Company continued to reduce inventory levels in the first quarter of 2002, though not at the same pace established in the first quarter of 2001. Accounts receivable remained relatively flat for the first quarter of 2002 after a large reduction for the first quarter of 2001. The Company continues its efforts to efficiently manage working capital. Some of these initiatives include better planning and forecasting, improved purchasing practices, discounting of slow-moving inventories, and more effective collection efforts.

The Company invested \$1,196 in property and equipment in the first quarter 2002 for retail real estate, computer related equipment for information systems, and various manufacturing equipment. The Company invested \$5,344 during the first quarter of 2001 for retail real estate, the build out of its leased showroom and computer related equipment for information systems. During the first quarter of 2001, the Company realized proceeds of \$3,028 on the sale of its former showroom in Thomasville, North Carolina and received a special dividend from an affiliated company of \$25,059, which was utilized to reduce the Company's overall debt position. During the first quarter of 2002 the Company expended \$2,118 to increase its ownership interest in the International Home Furnishings Center (IHFC) and to take an equity interest in a licensee operator developing stores in New England.

During 2000, the Company entered into a three-year \$70,000 revolving credit facility with a new lender and three other participants. The facility was amended in 2001 to address restrictive covenants and to reduce the total facility to \$60,000. The Company repaid \$5,000 toward this facility in the first quarter of 2002, to bring the balance of long-term debt outstanding at the end of the first quarter to \$2,466. During the first quarter of 2001, the Company repaid \$26,000 of this facility, principally by applying the special dividend from an affiliate. The Company does not expect to substantially increase its level of borrowings in fiscal year 2002.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF **OPERATIONS** (continued)

The Company purchased and retired 37,500 shares of its Common Stock for \$384 during the first quarter of 2001. These purchases were part of the Company's stock repurchase program, approved in fiscal 1998, which allows the Company to repurchase up to \$40,000 in Company stock. The Company made no share repurchases in the first quarter of 2002. Also the Company paid the fourth quarter 2001 dividend and the first quarter 2002 dividend during the first quarter of 2002 for a total of \$4,684. The extra dividend paid during the quarter relates entirely to the fact that the first guarter of 2002 contained fourteen weeks in the unusual 53 week year.

The current ratio as of March 2, 2002, and November 24, 2001, respectively, was 3.11 to 1 and 2.96 to 1. Working capital at March 2, 2002, was 64,056 compared to \$65,342 at November 24, 2001. The Company's consolidated financial statements are prepared on the basis of historical cost and are not intended to show the impact of inflation or changing prices. Neither inflation nor changing prices have had a material effect on the Company's consolidated financial position and results of operations in prior years.

Market Risk:

The Company is exposed to market risk for changes in market prices of its various types of investments. The Company's investments include equity securities and an investment partnership included in its investments in affiliated companies. The Company does not use these securities for trading purposes and is not party to any leveraged derivatives.

The Company's equity securities portfolio, which totaled \$8,002 at March 2, 2002, is diversified among over twenty different medium to large capitalization interests. Although there are no maturity dates for the Company's equity investments, management has plans to liquidate its current equity portfolio on a scheduled basis over the next four years.

The Company's investment in a limited partnership, which totaled \$57,876 at March 2, 2002, invests in various other private limited partnerships, which contain contractual commitments with elements of market risk. These contractual commitments, which include fixed-income securities and derivatives, may involve future settlements, which give rise to both market and credit risk. The investment partnership's exposure to market risk is determined by a number of factors, including the size, composition, and diversification of positions held, volatility of interest, market currency rates, and liquidity.
