### Bassett Announces Fiscal Fourth Quarter Results

---

(Bassett, Va.) – January 19, 2017 – Bassett Furniture Industries, Inc. (Nasdaq: BSET) announced today its results of operations for its fiscal quarter ended November 26, 2016.

#### Fiscal 2016 Fourth Quarter Highlights

- Consolidated sales were \$113.8 million for the fourth quarter of 2016 compared to \$115.6 million for the fourth quarter of 2015, a decrease of 1.5%.
- Operating income for the quarter was \$9.0 million or 7.9% of sales as compared to \$8.7 million or 7.5% of sales for the prior year quarter.
- Wholesale sales were \$62.6 million for the fourth quarter of 2016 compared to \$64.5 million for the fourth quarter of 2015, a decrease of 3.0%. Wholesale operating profit for the quarter was \$4.3 million or 6.9% of sales as compared to \$4.1 million or 6.4% of sales for the prior year quarter.
- Company-owned store sales were \$69.9 million for the fourth quarter of 2016 compared to \$66.3 million for the fourth quarter of 2015, an increase of 5.5%. This included a comparable store sales increase of 4.3% compared to the prior year quarter. Comparable store operating income was \$3.4 million or 5.2% of sales for the current year quarter as compared to \$2.9 million or 4.6% of sales for the prior year quarter. Total retail operating income was \$2.9 million or 4.1% of sales for the quarter as compared to \$2.2 million or 3.3% of sales for the prior year quarter. Comparable store written sales for the quarter increased 3.3%.
- Revenue for Zenith was \$24.2 million for the fourth quarter of 2016 compared to \$25.6 million for the fourth quarter of 2015, a 5.5% decrease. Zenith's operating profit for the quarter was \$1.4 million or 5.9% of sales as compared to \$1.4 million or 5.6% of sales for the prior year quarter.
- Net income for the quarter was \$5.0 million or \$0.47 per diluted share as compared to \$5.7 million or \$0.52 per diluted share for the prior year quarter.

“Led by a strong performance from our corporate retail segment, we closed the year on a high note,” commented Robert H. Spilman, Jr., Chairman and CEO. “After a sluggish start to the year, both our corporate and licensed retail store groups finished 2016 positively, largely due to the comparable store sales momentum that they generated during the second half of the year. We look ahead to a new year that will see us make significant investments in our store network, expand our digital presence, upgrade our manufacturing facilities and broaden our logistics platform.”

---

## Wholesale Segment

Net sales for the wholesale segment were \$62.6 million for the fourth quarter of 2016 as compared to \$64.5 million for the fourth quarter of 2015, a decrease of \$1.9 million or 3.0%. This decrease was driven by lower shipments to the open market (outside the Bassett Home Furnishings network) partially offset by a 5.7% increase in shipments to the Bassett Home Furnishings network as compared to the prior year period. The decrease in sales to the open market was primarily due to lower sales of imported product primarily from the discontinuation of our relationship with a significant customer and loss of sales from the HGTV Home Collection brand, exited late in 2015. Gross margins for the wholesale segment were 35.5% for the fourth quarter of 2016 as compared to 33.9% for the fourth quarter of 2015. This increase is due primarily to improved margins in the imported wood product as significant margin adjustments were necessary in the fourth quarter of 2015 as the Company was exiting the HGTV Home Collection brand. Wholesale SG&A for the fourth quarter of 2016 was \$17.9 million as compared to \$17.7 million for the prior year period. SG&A as a percentage of sales increased to 28.7% as compared to 27.5% for the fourth quarter of 2015. This increase in SG&A as a percentage of sales was primarily driven by higher marketing and advertising costs. Operating income was \$4.3 million or 6.9% of sales as compared to \$4.1 million or 6.4% of sales in the prior year.

“Our product assortment continues to undergo an important makeover as we seek more sales,” continued Spilman. “From our wood division, the Peninsula collection, the Wood Haven bedroom, the Bench Made bedroom, and several new occasional offerings hit our stores in December in advance of the key holiday selling weekends that start the year. In upholstery, the Designer Comfort and American Casual collections arrived in the stores on the same schedule. In addition to these assortment changes, two other new product offerings are significant as we look ahead. A revamped casual dining program was introduced at the October High Point Market which will begin shipping to our dealers and stores in February. This program has been a stalwart contributor to our wood sales for over 15 years and we have made capital investments in finishing technology in our Martinsville, Virginia manufacturing facility to produce the latest advancements in today’s marketplace. In addition to the work at the Martinsville facility, we will move our Zenith Logistics Texas distribution center and our Texas upholstery factory into a new 375,000 square foot building in mid-February. By housing both of these entities under one roof, we expect to gain efficiency and cut costs. The October show also included the debut of Club Level by Bassett, a major foray into the growing motion upholstery category. Primarily aimed at the open market channel but also featured in select Bassett stores, Club Level was met with enthusiasm by our independent dealer base and is already showing potential with the initial retail sell through results. Taken collectively, this new product effort will be a key determinant in the fortunes of Bassett in 2017 and our management will spend significant time in the field to make it successful.”

## Retail Segment

Net sales for the 59 Company-owned Bassett Home Furnishings stores were \$69.9 million for the fourth quarter of 2016 as compared to \$66.3 million for the fourth quarter of 2015, an increase of \$3.6 million or 5.5%. The increase was due to a \$2.8 million or 4.3% increase in comparable store sales along with a \$0.9 million increase in non-comparable store sales.

---

While the Company does not recognize sales until goods are delivered to the consumer, management tracks written sales (the retail dollar value of sales orders taken, rather than delivered) as a key store performance indicator. Written sales for comparable stores increased by 3.3% for the fourth quarter of 2016 as compared to the fourth quarter of 2015.

The consolidated retail operating profit for the fourth quarter of 2016 was \$2.9 million as compared to \$2.2 million for the fourth quarter of 2015, an increase of \$0.7 million. The 56 comparable stores generated operating income of \$3.4 million for the quarter, or 5.2% of sales, as compared to \$2.9 million, or 4.6% of sales, for the prior year quarter. Gross margins for comparable stores were 50.2% for the fourth quarter of 2016 compared to 50.4% for the fourth quarter of 2015. SG&A expenses for comparable stores increased \$0.8 million to \$30.0 million or 45.0% of sales as compared to 45.8% of sales for the fourth quarter of 2015. The decrease in SG&A as a percentage of sales was primarily due to greater leverage of fixed costs due to higher sales volumes for the comparable stores.

“We were pleased with the performance of our retail segment during the second half of the year and we look to the future with excitement as we work to expand our 59 store corporately owned network,” said Spilman. “2016 was foundational to our blueprint for store expansion in 2017 and beyond. This included repositioning one store, closing three, and opening two new ones in the year just ended. Furthermore, a tremendous amount of site selection and real estate negotiations took place during the year as we prepare to open six new stores and reposition two others over the course of 2017. Four of the new stores are expansions of existing markets and the other two are brand new. Therefore, 2017 will be a year of investment as we absorb in excess of \$2 million more in preopening and startup costs than we experienced in 2016. In addition to these up front expenses, proper site selection, store economics, and staffing are major challenges that must be met in order to successfully execute store expansion and these factors cannot be compromised. While we do not provide financial forecasts externally, we do believe that we have the ability to open five to six new stores annually in addition to strategically repositioning stores when warranted. With a track record of six consecutive years of positive same store sales and our focus on store productivity, we are intent on taking our concept to new markets and consistently growing our overall store count in the years to come.”
