## Bassett Furniture News Release

### Bassett Announces Fiscal Fourth Quarter Results

---

(Bassett, Va.) – January 21, 2016 – Bassett Furniture Industries, Inc. (Nasdaq: BSET) announced today its results of operations for its fiscal quarter ended November 28, 2015.

#### Fiscal 2015 Fourth Quarter Highlights

- Consolidated sales were \$115.6 million for the fourth quarter of 2015 compared to \$94.7 million for the fourth quarter of 2014, an increase of 22%. Excluding the sales from the recently acquired Zenith Freight Lines, LLC (“Zenith”), consolidated sales increased 7.0%.
- Operating income for the quarter was \$8.7 million or 7.5% of sales as compared to \$6.8 million or 7.1% of sales for the prior year quarter. Excluding the effects of Zenith, operating income would have been \$7.3 million or 7.2% of sales.
- Wholesale sales were \$64.5 million for the fourth quarter of 2015 compared to \$60.7 million for the fourth quarter of 2014, an increase of 6.3%. Wholesale operating profit was \$4.1 million or 6.4% of sales as compared to \$4.3 million or 7.1% of sales for the prior year quarter.
- Company-owned store sales increased 6.6%, including a comparable store sales increase of 6.7%, compared to the prior year quarter. Comparable store operating income was \$2.7 million or 4.2% of sales for the current year quarter as compared to \$2.2 million or 3.6% of sales for the prior year quarter. Total retail operating income was \$2.2 million or 3.3% of sales for the quarter as compared to operating income of \$2.1 million or 3.3% of sales for the prior year quarter.
- Zenith, acquired in the first quarter of 2015, generated operating income of \$1.4 million on sales of \$25.6 million or 5.5% of sales.
- Net income for the quarter increased to \$5.7 million, or \$0.52 per diluted share, as compared to \$3.6 million, or \$0.35 per diluted share, for the prior year quarter, representing a 56% increase in net income over the prior year quarter.

“Fiscal 2015 proved to be another strong year of sales and earnings growth for Bassett,” commented Robert H. Spilman Jr., president and chief executive officer. “Several operational milestones were accomplished in driving consolidated net revenue to \$431 million, a 27% increase compared to 2014, resulting in a 72% increase in operating income to \$26.0 million, or 6.0% of sales. Robust comparable store growth of 13% propelled our corporate retail group to a \$6.2 million operating profit, our first ever annual profit in that division. The acquisition of Zenith Freight Lines, LLC that took place last February solidified the future of our industry leading service proposition and contributed \$3.5 million of operating profit to the final ten months of the year. Largely driven by strong retail growth, our upholstery division posted a 14% sales gain and improved divisional operating profit by 22%. Finally, our start-up solid wood custom dining line, Bench Made, exceeded our sales plan and became profitable in the third month of operation. We believe that this strong performance of the integrated components of our business in 2015 underscores the opportunity that further expansion of our retail footprint and product assortment affords us in the future.”

---

“For the fourth quarter, consolidated revenue grew by 22% to \$116 million and operating profit increased by 29% to \$8.7 million,” continued Spilman. “Net income for the quarter was \$5.7 million and \$20.4 million for the year. Net income for the year, excluding restructuring expenses, gains on the Zenith acquisition, and income from the CDSOA distribution was \$14.8 million. Reported earnings per share for the year was \$1.88 as compared to \$0.87 for 2014. Excluding the effects of the previously mentioned items, earnings per share for 2015 was \$1.36.

“Over the course of 2015, we invested almost \$9 million in cash toward the Zenith acquisition and spent another \$14 million on capital expenditures to expand and improve the overall business,” said Spilman. “In addition, the Company returned \$7.9 million of capital to our shareholders in the form of dividends and share repurchases. Thanks to the generation of over \$32 million of operational cash flow, we were able to make these investments and distributions and end the year with \$59 million of cash and investments on the balance sheet. We expect to invest a larger amount on new store expansion in 2016 and beyond.

“Primarily through organic growth and partially due to the Zenith acquisition, Bassett’s revenues have increased almost \$200 million over the last five years,” added Spilman. “Accompanying this growth has been a five-fold increase in annual operating profit. We look ahead to 2016 not only in the context of the next 12 months but also with the long term performance and growth of the business in mind. In this regard, we are currently considering several locations for new store expansion over the next three years, with at least three of these planned to open in fiscal 2016. We continue to evaluate all stores in our fleet and plan to close three underperforming stores this year as well. Building on our five year track record of comparable store sales increases, we plan several new initiatives to continue this trend. Among other internet enhancements, we plan to unveil a new custom furniture visualizer in March designed to faster convey our capabilities to the e-commerce customer. Also extremely significant is the second phase of our store assortment makeover that began with the introduction of new wood items and finishes last spring. We are planning to move to a living area centric floor plan that will focus more on the upholstery products that are driving our sales today complemented by both imported and domestically produced entertainment and occasional furnishings. This effort will entail the discounting of existing products and the introduction of an array of new items slated for an early May store debut.”

### **Wholesale Segment**

Net sales for the wholesale segment were \$64.5 million for the fourth quarter of 2015 as compared to \$60.7 million for the fourth quarter of 2014, an increase of \$3.8 million or 6.3%. Increased wholesale shipments to both the Bassett Home Furnishings store network and the open market (outside the Bassett Home Furnishings store network) drove the increase in wholesale sales. Gross margins for the wholesale segment increased to 33.9% for the fourth quarter of 2015 from 33.7% for the fourth quarter of 2014. Wholesale SG&A increased \$1.4 million to \$17.7 million for the fourth quarter of 2015 as compared to \$16.3 million for the fourth quarter of 2014. SG&A as a percentage of sales increased to 27.4% as compared to 26.7% for the fourth quarter of 2014. This increase in SG&A was primarily driven by increased legal costs associated with an on-going environmental clean-up case that we believe will be settled in early 2016 and increased advertising costs largely due to the timing of the Labor Day promotional period as compared to the prior year. Operating income was \$4.1 million or 6.4% of sales as compared to \$4.3 million or 7.1% of sales in the prior year.

---

“Wholesale sales grew by 6% in the quarter,” said Spilman. “Shipments of \$252 million for the year represented a 13% growth rate and produced an 11% operating profit increase. Our upholstery division completed another stellar year with plans to begin production in a new manufacturing facility in Grand Prairie, Texas in early March. The new plant will begin by producing a portion of the upholstery assortment for customers and stores in the Texas area and west. Domestic wood production grew by 31% for the year thanks to double digit growth in our existing casual dining program and the new volume from our Bench Made line.

“As we previously announced, we renewed our partnership with HGTV through 2019,” Spilman added. “While the HGTV HOME Design Studio is an important point of differentiation for our stores and is playing a key role in our improved comparable store sales, the open market HGTV Furniture Collections of imported wood products was not as successful. We discontinued this line in 2015 which resulted in significant wholesale discounting over the course of the year to liquidate that inventory. Excluding sales from the HGTV Furniture Collections product line, our core wood sales actually increased modestly.”

### **Retail Segment**

Net sales for the 60 Company-owned Bassett Home Furnishings stores were \$66.3 million for the fourth quarter of 2015 as compared to \$62.2 million for the fourth quarter of 2014, an increase of \$4.1 million or 6.6%. The increase was primarily due to a \$4.1 million or 6.7% increase in comparable store sales.

While the Company does not recognize sales until goods are delivered to the consumer, management tracks written sales (the retail dollar value of sales orders taken, rather than delivered) as a key store performance indicator. Written sales for comparable stores increased by 10% for the fourth quarter of 2015 as compared to the fourth quarter of 2014. Written sales were positively affected by a stronger Thanksgiving promotional weekend than in the prior year coupled with a shift in the promotional calendar due to Labor Day being a week later in our fiscal quarter as compared to 2014.

The consolidated retail operating profit for the fourth quarter of 2015 was \$2.2 million as compared to \$2.1 million for the fourth quarter of 2014, an improvement of \$0.1 million. The 59 comparable stores generated operating income of \$2.7 million for the quarter, or 4.2% of sales, as compared to \$2.2 million, or 3.5% of sales, for the prior year quarter. Gross margins for comparable stores were 50.3% for the fourth quarter of 2015 compared to 50.5% for the fourth quarter of 2014. SG&A expenses for comparable stores increased \$1.4 million to \$30.4 million or 46.1% of sales as compared to 46.9% of sales for the fourth quarter of 2014. The decrease in SG&A as a percentage of sales is primarily due to greater leverage of fixed costs due to higher sales volumes for the comparable stores.

“Although our streak of five consecutive quarters of double digit comparable store sales increases ended in the fourth quarter, we were nevertheless pleased with posting a 7% comparable gain for the period,” continued Spilman. “In the larger context, the aforementioned \$6.2 million operating profit that our retail team turned in for 2015 was a significant achievement. And the \$2.2 million operating profit in the fourth quarter was our best retail quarter ever. Profitability has been achieved by reaching the sales levels that have sufficiently leveraged our cost structure as retail SG&A fell 260 basis points for the year. Looking ahead, we are concentrating on strategies to further raise the average unit volume of our store fleet, which has increased by 50% over the past five years. These efforts include enhanced internet marketing, changes in our furniture assortment and visual presentation, and further and more purposeful integration of our accessory offering into our selling strategy.”

---

About Bassett Furniture Industries, Inc.

Bassett Furniture Industries, Inc. (NASDAQ:BSET), is a leading manufacturer and marketer of high quality, mid-priced home furnishings. With 93 company- and licensee-owned stores at the time of this release, Bassett has leveraged its strong brand name in furniture into a network of corporate and licensed stores that focus on providing consumers with a friendly environment for buying furniture and accessories. The most significant growth opportunity for Bassett continues to be the Company's dedicated retail store program. Bassett's retail strategy includes affordable custom-built furniture that is ready for delivery in the home within 30 days. The stores also feature the latest on-trend furniture styles, more than 1,000 upholstery fabrics, free in-home design visits, and coordinated decorating accessories. Bassett is also growing its traditional wholesale business with more than 600 accounts on the open market, across the United States and internationally. For more information, visit the Company's website at [bassettfurniture.com](http://bassettfurniture.com). (BSET-E)

**Certain of the statements in this release, particularly those preceded by, followed by or including the words "believes," "expects," "anticipates," "intends," "should," "estimates," or similar expressions, or those relating to or anticipating financial results for periods beyond the end of the fourth fiscal quarter of 2015, constitute "forward looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended. For those statements, Bassett claims the protection of the safe harbor for forward looking statements contained in the Private Securities Litigation Reform Act of 1995. In many cases, Bassett cannot predict what factors would cause actual results to differ materially from those indicated in the forward looking statements. Expectations included in the forward-looking statements are based on preliminary information as well as certain assumptions which management believes to be reasonable at this time. The following important factors affect Bassett and could cause actual results to differ materially from those indicated in the forward looking statements: the effects of national and global economic or other conditions and future events on the retail demand for home furnishings and the ability of Bassett's customers and consumers to obtain credit; and the economic, competitive, governmental and other factors identified in Bassett's filings with the Securities and Exchange Commission. Any forward-looking statement that Bassett makes speaks only as of the date of such statement, and Bassett undertakes no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise. Comparisons of results for current and any prior periods are not intended to express any future trends or indication of future performance, unless expressed as such, and should only be viewed as historical data.**

\* Because it is a service company, all operating costs for Zenith are included in consolidated Selling, general and administrative expenses. The acquisition of Zenith has the effect of reducing consolidated Cost of furniture and accessories sold as a percentage of sales and increasing Selling, general and administrative expenses as a percentage of sales as compared to the prior year. For comparative purposes only, Cost of furniture and accessories sold would have been 45.0% and 46.3% and Selling, general and administrative expenses would have been 46.8% and 47.2% of sales for the quarter and year ended November 28, 2015, respectively, excluding the effects of Zenith.
